

PRODUCT INFORMATION

# General Information

ART.NO. XB01 VERSION: 230323

# MannTek

# The MannTek way

---

We strongly believe in connections – in more ways than one. Since 1997 we have been producing innovative and safe coupling products. But that's not where the story ends. We develop coupling solutions beyond expectations.

None of this would be possible without dedicated teams. Our experienced personnel are the heart of our existence. We deliver engagement and dedication embodied in customised solutions for our customers.

In a world where humans create new challenges every day, we provide reliable and innovative solutions to meet our customers' most pressing needs.

That's why our organisation is built upon good communication, respect for others, and trust.

At MannTek it is essential to connect with each other, with customers and with distributors, based on respect and understanding. Our open working environment and company culture fosters communication and knowledge sharing in a free climate.

## Our Products

---

Our couplings give exceptional safety. Tested and designed in the toughest way and produced in 100% traceable materials. Spill-free, safe and efficient.

**DDC**

Dry Disconnect Couplings

The given choice for handling any liquid, chemicals, gas.

**DAC**

Dry Aviation Couplings

Specially designed for handling aviation fuel and can be found at any point in the aviation fuel logistics.

**DGC**

Dry Gas Couplings

Used for loading and unloading of liquefied petroleum gas LPG and various other gaseous media.

## DCC

Dry Cryogenic Couplings

Designed for use of cryogenic applications/medias such as LNG and Nitrogen and other liquefied gases.

## DEC

Dry Evotek Couplings

A range of dry couplings which have been developed especially for use in the chemical and pharmaceutical industry.

## SBC

Safety Breakaway Couplings

Used to prevent pull away accidents, protect terminal and loading/unloading equipment and eliminated unwanted product release.

## CBC

Cryogenic Breakaway Couplings

Used to avoid spillage and damage associated with drive and/or pull away incidents when loading and unloading cryogenic liquefied gases.

## FFBV

Full Flow Ball Valves

Specially designed for handling different types of fuels such as diesel, gasoline, jet fuel etc. in tank trucks.

## SJ

Swivel Joints

Used in the industry wherever a rotating pipe or hose connection between two equipment parts is needed.

## AREAS OF USE

Aviation

Chemical Industry

Container

Gas (LPG)

LNG solutions

LNG/Cryogenic

Marine/Offshore

Military

Petroleum

Rail Tankers
